The Window Sock is designed to protect your rolled vinyl soft top windows when not in use. This easy to store, breathable bag comes with a soft 3 layer non-woven to prevent scratching and damage to your valuable windows and is also used to protect your rear “curtain” window when rolled up and left on your vehicle while cruising.

**Fitment: All model year Jeep Wrangler soft top windows, OEM or aftermarket**

**Q:** What years and models does the Window Sock fit?

*A: Available to two models which covers all Jeep wrangler with zip out windows*

**Q:** Does the Window Sock hold all three zip out windows?

*A: Yes, all there windows are separated by the liner; the rear window can be rolled with or without the tail gate bar attached on 1986-2006 wrangler windows. Tail gate bar cannot be rolled with the windows on the JK 2007-Current. For the JK the tailgate bar is left in the tailgate and secured by the closed tail gate.*

**Q:** Will the Window Sock fit my Jeep Unlimited with the longer windows?

*A: Yes! The Window Sock, designed specifically to fit the longer windows of the Wrangler unlimited.*

**Q:** What colors are available?

*A: Black, Red, Blue, Olive-green and Yellow*

**Q:** Are special request colors, customization and monogramming available?

*A: Please contact DLM-Distribution at [Sales@performancejeepchrysler.com](mailto:Sales@performancejeepchrysler.com) for a special order quote.*

**Q:** What is the protective liner made of?

*A: The liner is a soft non-woven, fabric.*

**Q:** Is the Window Sock available without a liner?

*A: Yes, the Window Sock and be ordered with or without the liner.*

**Q:** Can I order just the protective liner for use when rolling my rear window up and leaving it attached to my soft top?

*A: Yes! The Window Sock liner is perfectly sized to be rolled up in the rear window when still attached to your top. This protects a rolled window without the need to remove it.*

**Q:** Does the Window Sock have straps to attach the bag to my roll bars?

*A: No, The Window Sock is designed to hold your windows in a tight roll and to be stored under your folded down top on 1954-2006 Wranglers and in the rear cargo area for 2007- Current Wranglers (this prevents not only your windows from flying out of a moving Jeep but also is a theft deterrent as the windows are not in plain site and as easily accessed with the top down)*
